WEB DEVELOPER
INTERNET MARKETING CENTER | NOV 2021 - APR 2022

- working with CMS (making changes, posting content);
- working with data in Excel, Word, PDF files;
- HTML layout of site elements, often pages.

UNDERGRADUATE PRACTICE
COMEON MEDIA | MAR 2020 - MAY 2020

- made changes on the corporate website (adding and changing content, creating new pages, etc.);
- created AR masks for Instagram using photoshop and spark ar studio.

FREELANCE DEVELOPER
JUN 2020 - MAY 2020

It was necessary to create a website that would collect information from various sources on a daily basis and form a database based on them (sorted by category), which would be collected by subscription.

In my tasks was includ:
- site structure evaluation;
- develop an architectural database with a lead;
- write a parser using C#.

Project was written by 80%, after which the customer suspended the project due to the pandemic.

SUMMARY

I like creating structures and their logic, transferring layouts from a picture to a real project, so I decided to develop as a Frontend Developer. I always try to learn something new and improve my skills.

Successfully completed a Frontend Developer course. Also, I had experience of working in a team.

I have knowledge of: HTML, CSS (Sass/Scss), JavaScript, TypeScript, React-Redux, Git, Figma.

In my free time, I work on expanding my skills, watching tutorial videos, and reading documentation.

EDUCATION
